

INDIRECT OPHTHALMOSCOPE – OIN 2000

Features

- ✓ Advanced optical design, no reflection, broad field and sharp image.
- ✓ Super light and comfortable design effectively reduces the tiredness.
- ✓ Adjustable locking button and illumination control button ensure comfortable observation angles.
- ✓ Filters and reflector with internal dustproof device ensure good observation performance.
- ✓ Light Spot: Large (F60mm), Middle (F40mm), Small (F20mm), suitable for various pupils.
- ✓ Teaching tube, double sides coated beam splitter, ensure the synchronous observation.
- ✓ Smooth surface of the two types of iris compressors prevent tissue from injuring.
 - ✓ Filters: red-free, cobalt blue, compensation filters.
 - ✓ +20D aspheric Lenses.

Specifications

| | |
|---|---|
| Field Angle | 45°±5° |
| Adjustable Interpupillary Distance | 52mm - 74mm |
| Adjustable Range of Head Bracket | Head Circumference: 530mm-630mm , Depth: 85mm-125mm |
| Illuminance | ≥ 500 lx |
| Illumination Source | 6V/10W , Halogen Bulb |
| Power Supply | AC220V/ 50Hz、 AC110V / 60Hz |
| Dimension of Main Body (mm) | 142×48×128 (L×W×H) |
| Weight of Main Body | 230g |
